October 1999

The Pedaller

A World's full of surprises

As we struggle with the problem of where the winter clothing was stored last spring the professional riders are enjoying the warmth and challenge of the World Championships in Verona.

Michael Andersson set a sensational time of 1:00:42 in the 50.6km TT and nearly caused the first upset of the event. For almost an hour after he finished he was still sitting atop the leader board. Jan Ullrich had been as much as 26 seconds ahead of Andersson at half-distance, but he was conceding second after second to him on the run-in to the finish. At the line Ullrich stopped the clock in 1:00:28; he had won the gold medal by just 14 seconds.

Andersson got the silver with Chris Boardman — returning to good form after a disastrous Tour de France — taking the bronze. Boardman overhauled three men en route to the finish: Spaniard Melchor Mauri, Swiss Alex Zülle and Ukraine's Sergei Gontchar, but continued to cede time to Andersson, to finish with 1:01:27.

In the men's road race it was supposed to be a fight among the powerhouse countries — Belgium, Italy, Switzerland and Germany. Instead, second-year Spanish pro Oscar Freire stole the show with a perfectly timed move in the final 800 metres.

Freire took the rainbow jersey ahead of Swiss Marcus Zberg.

The ladies race went closer to form with 23-year-old Edita Pucinskaite, taking the line ahead of a small chase group featuring the ever present Jeannie Longo. The second year in a row that a Lithuanian rider has taken the title.

If all this competitive activity inspires you keep your bike on the road over the winter — or even get it out — then there is plenty to do during the next few months, as well as the hill climb (below) there are regular club runs on Sunday and training rides on Tuesday and Thursday (page 4). So no excuses, dig out those thermals and get riding!

Calling all climbers...

The Club Hill Climb will be held, jointly with 1st Chard Wheelers again this year, on Sunday 24th October. The Club run will leave at the usual time (9.00 at Yeovil Sports Centre) and be at the Pub Car Park at the top of the climb in High Ham for a 10.30 (ish) start. There is no entry form or fee, just turn up and ride.

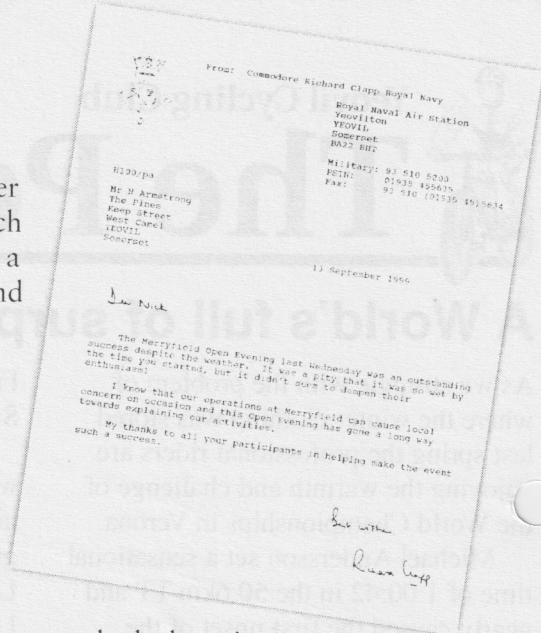

Merryfield or...

Merryfield had a steady turn out of riders throughout the year. The handicap system of sending the faster riders off first (they then had to catch the main bunch for one lap) proved a popular choice with most people, and led to some lively riding and excellent training.

The regular riders numbered between thirty and forty most weeks, which should mean the costs have been covered, and with a good bit of PR to finish the season, use of the circuit next year should continue.

...not so merry a field

The final event on the calendar at the Ilton airfield was the Open Day. Amidst the massive crowds, the static displays of Helicopters and other military hardware a short race would demonstrate the joys of cycle racing. Well that was the plan, but the weather had other ideas. The rain began to fall and a bunch of riders (virtually all from Yeovil CC) huddled in a tent. The track was

soaked, the rain had dispersed most of the spectators, but the show must go on. So to the enthusiastic commentary provided over the PA system by Nick Armstrong (the only dry cyclist on the site) a bedraggled group tried to cling on the the back wheel of Chris Absolom and Mike Loader for 15 minutes. At least our efforts were appreciated, even if we did spend more time cleaning our bikes afterwards than we did racing!

Up for the Cup?

Will anyone holding a club trophy please arrange to return it to Gary Mitchener before the end of October, preferably in the same condition you received it. There are trophies for all categories of rider from novice to veteran, road racing to time trialling. If you think you are eligible for one of

the club cups this year then make sure Mike Northcott has the details, it is not easy to keep track of everyone's results throughout the year and its too late once the trophies are engraved! The presentation will take place at the club buffet in December, see page three for further details.

FAST FOOD FRENZY...

The annual **Club Buffet and Prizegiving** is scheduled for **Sunday 5th December**, at the Sports Centre in Johnston Park. It is open to everyone, partners, family or friends. With the move to the centre of Yeovil getting there, and home, should be even easier. An ideal opportunity to catch up on the seasons activities and meet some familiar faces.

The buffet will be in the same style as previous years with a selection of meats and fish, a plentiful supply of salads and hot fare. Followed by a variety of sweets, cheese and biscuits, and coffee. We have a room to ourselves complete with its own bar, there is plenty of parking both for cars and bikes.

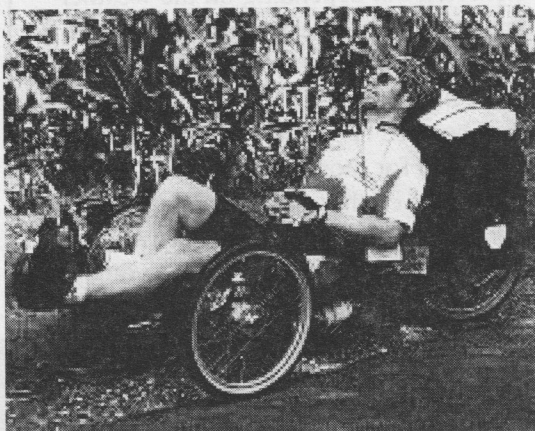

The normal club run will depart from Yeovil at 9am and return around 12.30, with the buffet starting at 1.00. If the weather is bad the run will be short to enable everyone to get home and change.

The presentation of the Club trophies will take place around 2 (or as soon as everyone has eaten).

The cost is £7.50 per person, the same a last year.

You can hand your cash or cheques to either David Notley, or Gary Mitchener. Alternatively complete the form below and post it to me with the appropriate amount of cash, or a cheque made payable to Yeovil CC.

Please make sure you have booked by the end of November

The ideal form of transport for the return journey after the buffet?

Please reserve me

tickets @ £7.50 each for the Club Buffet .

I enclose a cheque/PO made payable to Yeovil CC for £

Winter Training

The winter training rides are now in full swing with two each week, both follow roughly the same route and schedule.

Starting in Yeovil at 6.30 outside the new Palmers Restaurant, it arrives at Coppits Hill ten minutes later. From Yeovil a steady pace is maintained out through Marston Magna, Queen Camel and Sparkford. Climbing on to Castle Cary and then through Lydford and Kenton, down to Charlton Mackerel. The usual route is back through Ilchester, but depending on the weather and make up of the group it sometimes returns via Long Sutton and Bower Hinton.

The pace is steady, aiming to keep at level two for most riders. Good lights, and warm clothing are essential. If you are looking for good quality winter mileage then this is the ride for you.

Thinking ahead

When you've struggled through the winter why not treat yourself to some Spring riding in the Mediterranean sun? There are a number of options available, several riders have already booked their Training Camps for March 2000, if anyone else is interested in joining them then book now.

Nee-mail?

I cannot believe there are only two club members out there with e-mail, (*perhaps there are only two of you that read the Newsletter*). If you want to be on the mailing list then drop me an e-mail at:

david@thenotleys.in2home.co.uk

This can also be used if you want to include something in either the conventional Pedaller.

What an Audax- ity

If you enjoy riding but are not into frantic racing, either against the clock or other riders, then why not take up the challenge of Audax riding. With rides varying in length from 50km up to the ultimate challenge of the Paris - Brest - Paris (*pictured right*) riders can choose not only the distance but the pace too. There are plenty of local rides throughout the year, full details can be found on the Audax web site, www.aukhawk.demon.co.uk

Committee Notes

A brief resume of the last committee meetings. Topics covered elsewhere in this issue are mentioned only briefly.

Correspondence. Invitation to host the RTTC Series event declined. Letter and questionnaire relating to a cycle track in Swindon discussed. The cost of the video camera was £824.98, insurance details being sought from CF and RTTC.

The Treasurer reported £34.00 in new membership received.

Evening TTs, now back on normal course. TTT delayed until late summer.

Sunday Club runs continue with a regular attendance.

The RR Secretary noted poor turn out for John Andrews RR, prize list agreed at £120 total. **Membership.** Now at 37 members.

Records Sec No new records.

TVCRA. Good turn out each week, the possibility of using a handicap system one week is being investigated.

Press Secretary, Newsletter Editor, no reports.

Matters Arising. Insurance details for camera not received. Nick Armstrong will organise social side of TVCRA 4-up. Swindon track

questionnaire sent.

Correspondence. Request from RTTC for details of traffic counts done on Thursday evenings. (Sent already).

Letter from S Oxbrow, Vegetarian C & AC proposing we jointly host the RTTC series event (the one declined last meeting), with VC Camelot, still declined, no suitable course.

Notification of West Div. AGM on 19th Sept, no date fixing, event details required by post. Proposal sent to amend rules to require BCF Affiliation fee to be paid by 31st October, to ensure Clubs are affiliated in time and hence not cause delays to riders licenses being approved and dispatched. Gen secs expenses approved.

The Treasurer reported £50.00 paid to Ilchester school. £30 to SSDC for advert in Sports Programme. £36.00 in membership received. £46.41 from Evening TTs. £35.50 from clothing sales. Impsport clothing bill of £708.82 paid.

Evening TTs, date for 4-up set as 29th July, with club H'cap on 5th August. It was suggested the proceeds of one of the Evening TTs be given as sponsorship to Andy Millward for his end-to-end, all agreed.

Sunday Club runs continue with a regular attendance.

The RR Secretary provided an account for the John Andrews RR, a small loss of £40.84 was recorded.

Membership. Now up to 40 fully paid.

Records Sec No new records.

TVCRA and Press Secretary. Nothing to report.

Newsletter Editor July issue had been published.

August Meeting cancelled
September Date Fixing

It was agreed that the events for 2000 should follow the same format as this year with the same dates if possible. The only

exception being the Ham Hill Road race

which it was felt would benefit from an increase in distance the race will be extended by one lap. Concern was voiced about the continuing lack of information on the regulations for Racing on the Highway, due to come in to force next year. In light of the lack of information it was agreed that the only solution was to submit the dates and entry fees as agreed and if the new regulations are too onerous or expensive then the races may have to be cancelled. The BCF Western Division is to set up an equipment pool for use at road races. It will initially be stocked with basic items such as road signs and numbers etc, these can be booked by organisers for use at their events upon payment of a refundable deposit.

Meetings 8th November, 13th December.

The flood plains of Podimore

As riders and supporters huddled in the mobile hut, watching the pouring rain and the floods in the lorry park become ever deeper, there was not a lot of optimism that the fast times of last year would be repeated.

With a field of almost 90 riders, the best turn out for several years, the Autumn 10 was looking like it may be a wash out. Yet the first man to start, and the first man back, was John Fazakerley with a new PB of 23.01 (*he was certain that it have been a twenty-two had it not been for traffic*). So it was fast out there after all.

Another of the early starters, number 20, was Mike Loader with his current form great things were anticipated from him and he did not fail to deliver. With a new club record of 20.55 he was the fastest man of the finish board right until the last two seeded riders finished.

But the good news did not finish there, a further twenty riders out of the 70 starters also managed to clock new PBs, with improvements ranging from just one second up to Andrew Sturgess who knocked off 1.38 to take the Best Improvers Prize. Another dramatic improvement was Patrick Hogben of CC Weymouth who

took the Junior/Juvenile prize, improving his time by 1.31 to 25.04. CC Weymouth also took the Womans prize, thanks to Lindsay Beale.

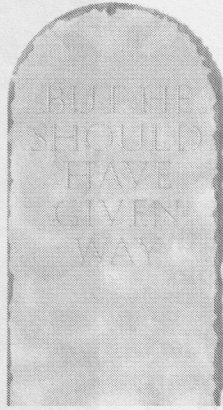

Amongst the other notable rides were John Clemit, in his first season with Yeovil, who improved from his early season rides of 26.34 to 22.56. Steve Pym and Mark Askill, also both new club riders, narrowly missed their PBs but both ended the season with considerable improvements over the year. Andy Millward of VC Camelot, fresh from completing his end-to-end was just on the right side of 23 with a 22.59.

A big thank you to all the Marshals and helpers that stood in the pouring rain and yet still managed to make it back to the tea tent smiling – it really is appreciated.

The Hypocritical Way Code

We have all seen it happen, drivers overtaking cyclists on blind bends, brows of hills, or simply driving too fast on country lanes. If there was an accident then it would invariably be the cyclist that came off worse. So when you are out riding always expect the unexpected. Ensure that you are visible, especially as the nights draw in and the weather gets worse over the next few months. Make sure your intentions are clear and predictable, but above all ensure that you stay on the right side of the law too.

No names mentioned, but a bunch of riders, that should have known better, failed to give way in a situation where they were required to. Cars that

To qualify for an epitaph you need only meet one criteria...

had the right of way were forced to stop, and justifiably their drivers were none to pleased. An apology helped to rectify the situation but it is that sort of riding that not only reflects badly on cyclists in general but on the Club too.

If we demand that other road users abide by the rules of the Highway Code then must we.

If you are out in a bunch the riders on the front (or the rear for following vehicles) should be responsible for assessing the roads, and make clear their intentions to the rest of the bunch as well as other

road users.

Enjoy your winter riding but please take it carefully. Remember to qualify for an epitaph you need only meet one criteria...

...to be dead.

Is it worth rushing into?
