A brisk westerly breeze made conditions markedly different between the outward and return legs. This suited some riders more than others, so although overall times were similar to the previous week, several riders changed position in the finishing order. Remaining at the head of the field was Andy Millward, one second slower than the previous week, with a 11-33. Luke Denman produced a good ride, with an improvement of 16 seconds on his previous week's time.

Traffic: Light.

Thanks to marshals & timekeepers. Gary Mitchener, Derek Todd and Mike Northcott.
