The traffic lights are now finally in action so the start and finish were moved to accommodate them. The new locations do not seem to have affected the times or the safety of the course. The consensus tonight was that there was plenty of room after the finish before the traffic lights and that it was safe to return via the roundabout (obeying the lights of course). The lights have also made it safer for riders using the roundabout.

Traffic: Low

Thanks to marshals & timekeepers.

Derek Todd, Mike Northcott, Stuart Wroot and Hugo Baldacchino.
